## Od sirovog kvarca do najčvršćeg kamena.

U odnosu na prirodan kamen, kvarc ne bleđi tj. ne menja boju tako da ostaje istog izgleda kao i prvog dana. Kvarc može doći u gotovo bilo kojoj boji, veličini i obliku. Prelepim nijansama boja i dezena čine enterijer luksuznim. Kvarcne ploče, u odnosu na kamen, nisu zahtevne za održavanje.
